Experience

Full-Stack Developer Intern — Prodesk IT

May 2026 – Present

- Working on web development tasks using HTML, CSS, JavaScript, Node.js, and Express.js as part of my internship.
- Building user-friendly interfaces and implementing responsive layouts.
- Using Git and GitHub for version control, collaboration, and deployment.

Projects

CashFlow Expense Tracker

Live Demo

- Built an expense tracking application with charts, PDF reports, dark mode, and currency conversion.
- Used LocalStorage, Chart.js, and jsPDF to manage data and generate reports.

Dev Detective

Live Demo

- Developed a GitHub profile analyzer using the GitHub REST API.
- Implemented profile search, repository display, user comparison, and error handling.

Prodesk IT Digital Agency Landing Page

Live Demo

- Developed a responsive landing page with dark mode and sticky navigation.
- Designed mobile-friendly layouts and deployed the application using Vercel.
